

## Table top

The oak tabletop combines natural beauty, strength, and durability. Its rich, warm tone and pronounced texture add coziness and elegance to any interior.

The smooth, sanded surface and finished edges ensure comfort and safe use. The tabletop is resistant to daily wear and is suitable for the kitchen, dining area, or workspace

Matching legs can be selected in the "Legs" section to create a harmonious combination of style and functionality.

The product can be custom-made according to your provided drawings and technical specifications, with the flexibility to combine elements and adjust shapes and dimensions.

Due to the natural structure of oak, the wood grain may differ from the photo, as each piece has its own unique and unrepeatable pattern.

### Size:

Thickness – 20 – 50 mm

Width – 700 – 1300 mm

Length – 1600 – 3000 (3500/4000 – pre-order)
